Following these guidelines will help make this the best resource for heavy equipment on the net. Thanks for joining us and I hope you enjoy your stay!! I would like to know if anybody out there could tell which Bucyrus Erie model this is. Im unable to see any model tags on the crane and have not been able to find a similar model on the net. Btw the concrete mixer is an old Checkoslovakian model Maybe an old school manual rig too, IDK for sure tho. Maybe in the 10B range. The cab looks a little different from those though.

BTW, it is definitely manual controls, BE didnt use air controls on anything smaller than a 30B. This time I was able to upload a slightly larger picture. I looked around a little and found some older 10Bs with a similar cab. Most of my BE experience was with machines from the 60s70s, but they made 10Bs all the way back in the 1930s. Once you get up to the 15Bs, the house is as high as the top of

the cab.I think they bought it brand new in 1964.I thought all their machines insignia was Ruston Bucyrus. The sign Bucyrus Erie would seem to say it came from the USA manufacturer. I could be wrong too. I started out on 22Bs but and have seen 15Bs but dont recall seeing this house configuration. Nice pictures.Im not completely sure about the year though since its been a few years since I saw the for sale ad.Im not completely sure about the year though since its been a few years since I saw the for sale ad.
